

thereof;

a surface pattern applied to the substrate and comprising:

pattern elements with an ecotone motif corresponding to a selected environment;

photographic images of distinct landscape features selected from images of scenes of ecotones representative of the selected environment; and

[wherein] the [selected] photographic images [are], ordered in a synthetic perspective relationship.

Please cancel claims ~~31-62~~ without prejudice.

Remarks

Applicant has canceled the method claims in the case, without prejudice to their later prosecution in a Continuation Application.

Respectfully submitted,

A. John Pate
